- End of Term two

Students Practicals/ Teaching practice

Students started their teaching practice on the 3rd July and it lasted for three weeks until the 21st July. All students did a fantastic job as there was a lot of improvement compared to term one practicals. With the current group of twenty three students they all had a wonderful opportunity to go to six different preschools that we are partnering with.

This was a wonderful experience to the students as they all enjoyed the time with children and the opportunity to teach for the three weeks. The preschools we are working with also enjoyed this time as their teachers had a privilege to learn new things from EduGate students. This was not just a learning time for students only but for everyone involved.

Trainers also did very well in assessing students in their various schools. Practical marks for term two will appear in the transcripts. The practical marks will be a combination of Trainers' assessments and Head Teacher's assessments from each school. We are currently working on aggregates from the two types of scores. This was a great time of learning and fun as everyone involved participated positively in all activities that will hence improve and help students as they teach in preschools.

Exciting students

Partnering preschools have shown great support as they showed big interest in hosting our student even in the third term October practicals.

Term two exams

Classroom lessons also continued for the last week of July to help students catch up with their courses and training. Preparations for end of second term examinations were also in the final stage as all exam sheets and marking guides had been prepared.

Hawane training center

It is exciting that all twenty three students are preparing to sit for their second term examinations. July has been a very busy month at EduGate as both students and trainers were doing all relevant preparations for exams.

End of term two

It is an exciting time in EduGate as we prepare for the end of the second term. Term two will be ending in August. We give all Glory and Honour to God for being with students and EduGate team up to this far.
